

# Move

Tom MacDonald

Life is a road full of obstacles, you gotta know when to call out the audible  
Anything possible, anyone talking too often in comments is caught in the drama, it's obvious  
We all got options, we all got problems, we all got places to be  
We all got issues and haters and struggles and exes to get in the way of our dreams  
Can't stop, won't stop  
Gotta get a bag, gotta get a whip, gotta get a chain, gotta get it quick  
Gotta get a million, a mansion on a hilly and a little bit of clout and respect  
Ay, ay, life is crazy, your whole gang-gang want a payday  
Feel the pressure you've been stressing, every day-day is the same-same

When the car break down, when the house fell apart, when the plan don't work, just move on  
When the money all gone, when the phone don't ring, when the job ain't cool, just move on  
When the love ain't there, when the gang switch up, when the vibe ain't good, just move on  
When the well run dry and the song won't sing, when you can't no more, just move on, move on

Move out the way  
You can hear the boom-boom-boom every time I pass your place  
Move out the way  
I'm about to vroom-vroom-vroom, hit the gas and cut the brakes  
Move out the way  
You can hear the boom-boom-boom every time I pass your place  
Move out the way  
I'm about to vroom-vroom-vroom, hit the gas and cut the brakes

Life ain't for the weak, dying ain't for me  
You say you're the goat? Lions need to eat  
Liars in the homes, liars in the streets  
Say you got the smoke? What about the weed?  
Life is a game full of enemies  
Take all your money, your time and your energy  
Gotta be smart where you're placing your equity  
Too many cooks in the kitchen, they're stealing your recipe  
Can't quit, won't quit  
Gotta get a L if you wanna get a dub, gotta go to hell if you wanna love  
Gotta get away and do it for the people that are hoping that you're done, ay  
RIP to all those peeps that saw those tweets, y'all really follow me  
Y'all don't wanna talk, but you shout out me, I can't hear you from this mountain peak, bitch

When the car break down, when the house fell apart, when the plan don't work, just move on  
When the money all gone, when the phone don't ring, when the job ain't cool, just move on  
When the love ain't there, when the gang switch up, when the vibe ain't good, just move on  
When the well run dry and the song won't sing, when you can't no more, just move on, move on

Move out the way

You can hear the boom-boom-boom every time I pass your place  
Move out the way  
I'm about to vroom-vroom-vroom, hit the gas and cut the brakes  
Move out the way  
You can hear the boom-boom-boom every time I pass your place  
Move out the way  
I'm about to vroom-vroom-vroom, hit the gas and cut the brakes

Move out the way, hit the brakes  
I'm the truth, y'all are fake  
This a race that y'all gon' lose, it's not a game  
So be careful where you shoot 'cause your boy can aim

Move out the way  
You can hear the boom-boom-boom every time I pass your place  
Move out the way  
I'm about to vroom-vroom-vroom, hit the gas and cut the brakes  
Move out the way  
You can hear the boom-boom-boom every time I pass your place  
Move out the way  
I'm about to vroom-vroom-vroom, hit the gas and cut the brakes
