

# Need Ya

Tom MacDonald

Yeah

This one for the pretty girls  
Every girl that ever thought that I did  
Yoo, I need ya, I need ya

You can call me Mr. Mac baby, playing for the hardest team  
Make three dudes, two and a half men, Charlie Sheen  
We gettin' war money, call that mullah army green  
I'm a beast and monsters is a party theme  
Swagger like a parents room, really hard to come by  
Runnin' this shit like she would if she was untied  
Beatin' all night, I'll never stop needin' ya  
You're a knockout, I should get beaten up  
He a clown and his men all carneys  
We did buy a squid and then call him calamari  
We the animals, he on a safari  
There's three of us and only two seats in Ferraris  
More hoes than a Facebook chat with sniper  
If you playin' you like [?] then I'll bring him the tarantula  
She say she need me, I say Bono girl, I need you too  
All he see is green and he yellow like a Pikachu

I bet you never heard it before, I need ya, I need ya  
I bet you never said it before, I need ya, I need ya  
And I have never said it before, I need ya, I need ya  
And I have never meant it before, I need ya, I need ya

What's goin' on lady, I think I need you cause  
Any time you're not around I need to catch a buzz  
Yeah, uh, love passed me by like a missed bus  
Call it like a blackjack, mami I'm a hidden bust  
Snow bluff, gotta be more than lust  
What your bringin' it to the table, ma, I can't get enough  
Could've given me a bangin' body or the boot  
Or the fact she got me sweatin' thinkin' 'bout it in the booth  
And it's oh-so serious, Medusa seduce  
Cause she got me so stoned while I'm rollin' the deuce  
Uh huh, yeah, thought I found a safe bet  
But I swear this world dangerous, can't call her safe sex  
Feels so right but it's still so wrong  
I won't put up a fight, no, no  
Yeah, I'm the bass clef and she the high tone  
Together we the music that created this song, come on (I need ya)

I bet you never heard it before, I need ya, I need ya  
I bet you never said it before, I need ya, I need ya  
And I have never said it before, I need ya, I need ya  
And I have never meant it before, I need ya, I need ya

She been fly since birth, I like to call her airborne  
Other girls flamin', she is like the air force  
I swear she'll put you in the woods, hiker  
And you'll never see it coming, sniper  
I don't care who the ex is, I like her  
Does he know that I have ADD, swag hyper  
She adore me, don't try to knock it  
Two of them dicks in the hole, call that a cockpit

Glory hole flow, uh, balls to the wall  
She give them different numbers every time and they call  
I let it burn, she rolled a blunt in the Hyundai  
Exhale a heart and I say she throwin' money  
Puppy dog eyes, all dogs go to heaven though  
And if they put me down I know that she will let 'em know  
My women, we win here and win there  
I'm flying off the wall like a curtain in the air, whore

I bet you never heard it before, I need ya, I need ya  
I bet you never said it before, I need ya, I need ya  
And I have never said it before, I need ya, I need ya  
And I have never meant it before, I need ya, I need ya  
I need ya, I need ya  
I need ya, I need ya  
I need ya, I need ya  
I need ya, I need ya
