

Never Know

Tom MacDonald

Light one of them slow burns
And I'm straight like no turns
Skeleton in my closet is your girlfriend
I boned her
I just hope these hoes learned
I can not be fucked with
I'm among a duck hunt
Shoot anything with duck lips
I just got my blunt lit
I'm kushed out, my lady
I let you push my buttons
But you won't push out my baby (true)
I never call my exes
If I did I'd call them crazy
I just got out of the game
And then I got in a Mercedes

Bitches come and bitches go
But come back if they left before
Men light and women light
I guess that's why you never know
I guess that's why you never know
I guess that's why you never know
When bitches come and bitches go
But come back if they left before
Men light and women light
I guess that's why you never know
I guess that's why you never know
I guess that's why you never know

Roll one up and light with
And I'm out like strike three
I'm so bored of bitches
That learned to dance watchin' my lead
I ain't buyin' no drinks
Fuck what all these hoes think
I don't need a queen
For me to know that I'm a born king
Four things I'll do without
Hoes, hoes, hoes, hoes
If love is in the air
I hold my breath and plug my nose
Fuck what she talkin' 'bout
Like whoa, whoa, whoa, whoa
I got no time to waste
If you're just wasted and you're broke

Bitches come and bitches go
But come back if they left before
Men light and women light
I guess that's why you never know
I guess that's why you never know
I guess that's why you never know
When bitches come and bitches go
But come back if they left before
Men light and women light
I guess that's why you never know

I guess that's why you never know
I guess that's why you never know
