

Pretend

Tom MacDonald

I'm just playing, cha-cha cha-cha
Don't be mad at me, yeah just don't be

Let's pretend we got a little more time to spend with our friends
Let's pretend that we'll never get old in this bitch
We'll never get old in this bitch
Let's pretend we got a little more lean to pour in our cups
Let's pretend that we'll never give a fuck about nothing
We'll never give a fuck about nothing

Let's light another cigarette and finish off the Jack Daniels
Skinny dip and leave our inhibitions with our sandals
Start a fire on the beach, run from the police
Live fast, die young, have fun and be free
Bring a bottle to the drive-in, jump the fence and dive in
The neighbors pool, I just wanna enjoy life and break the rules
I'm not tryna hurt nobody, I just wanna live
I just wanna love somebody and laugh at what we did, aye

Let's pretend we got a little more time to spend with our friends
Let's pretend that we'll never get old in this bitch
We'll never get old in this bitch
Let's pretend we got a little more lean to pour in our cups
Let's pretend that we'll never give a fuck about nothing
We'll never give a fuck about nothing

Let's light another blunt and drink liquor in the sun
Put some gas in the tank and drive it until there's none
Make faces at cops and shake up your homies pop
And then laugh until your stomach hurts and forces you to stop
Let's give names to the stars and wish on all the shooting ones
Beer bong, a six pack, keep five down and puke one
We weren't meant for work, children of the earth
Peace signs, fat joints and dirty shirts
Sit around the campfire and talk about the old days
We used to waste our money on brand names and gold chains
Yeah, let's do it like we supposed to, let's pretend that nothing's ever over

Let's pretend we got a little more time to spend with our friends
Let's pretend that we'll never get old in this bitch
We'll never get old in this bitch
Let's pretend we got a little more lean to pour in our cups
Let's pretend that we'll never give a fuck about nothing
We'll never give a fuck about nothing

Let's hang out on the rooftops and listen to Nirvana
Dream about the days when we're richer than Madonna
Eating cold pizza 'cause we fucked up the oven
Getting drunk in the streets, start making out in public 'cause
We don't want things to change
We just wanna get together at our favorite place
And even if it goes down the drain
We'll just make believe that everything's OK, yeah
Let's pretend
No, let's pretend
Let's pretend we'll be together 'til the end

Let's pretend we got a little more time to spend with our friends
Let's pretend that we'll never get old in this bitch
We'll never get old in this bitch
Let's pretend we got a little more lean to pour in our cups
Let's pretend that we'll never give a fuck about nothing
We'll never give a fuck about nothing
Let's pretend, let's pretend
Let's pretend, let's pretend
Let's pretend we got a little more lean to pour in our cups
Let's pretend that we'll never give a fuck about nothing
We'll never give a fuck about nothing
