

# Race War

Tom MacDonald

It's okay to be racist  
As long as you hating on the Caucasians  
Teaching white kids that their shades the same as school shooters and rapists  
Maybe I ain't tripping 'cause the white children have been getting taught that  
at they got white privilege  
By the white guys in the high heels who identify as the white women  
I'm not proud to be white but I'm fine with it  
Guess I'm not allowed to have pride in it  
'Cause the colonizers and the white bigots  
Made white history my business  
I ain't never gonna give a damn if you like me  
I ain't gonna trip when they stereotype me  
I'm a white boy and a white boy like me  
Knows that all lives matter, bite me  
When I was younger they taught me to never see color  
To treat every man as if he was my brother  
But now that we're grown up we hate one another  
For all of the ways that we struggle and suffer  
They coming for blood and we're running for cover  
The government wants us divided and dumber  
Addicted and drunk in the gutter  
So we never wake up and never recover

Call me culture vulture 'cause I rap good  
I don't pop Xans or smoke Backwoods  
But they call me a "wigger" and label me Hitler  
And hate like I am wearing a Klan hood  
It ain't left or right or black or white it's good and evil  
Elite folks ain't normal people  
United we stand and divided we fall  
America, we got to get real  
You were segregated, that was not fair  
You were enslaved, they did not care  
But you were never on a plantation  
And my generation was not there  
That's trauma in your DNA  
Causing what we see today  
I pray to God you staying strong  
Don't wanna see no man in pain  
Dear white folks, I'm embarrassed  
Some of y'all are such Karens  
That prejudice you inherited  
Was racism from your parents  
Get that poison out your veins  
Whites and blacks are all the same  
They want us in our graves  
Just let me try to explain

I swear they want us in a race war  
Dying every day for  
Whose lives matter more  
Whoa  
I won't be dying in the race war  
Our government is paid for  
'Cause our lives matter more  
Whoa

If you born black, you lose  
Might as well go get that noose  
You gonna die before you 25  
Get shot over your shoes  
You gonna get killed by police  
Even when you follow the rules  
If you listen to the news  
You gon' believe all this is true (True)  
I ain't feeling no white guilt  
They won't riot for me when I'm killed  
I guess white lives don't matter  
Sad, but that's the way that I feel  
I feel like they feel like I don't know what they all call me  
Cis white male, bigot, racist, he's a Nazi  
That's not me, I'm not one of these white liberal commies  
Who think black America needs allies in their Army  
Your neighborhood's all gated  
You claim you pro-black but you're faking  
Guys are dying on the pavement  
All your hashtags won't save them  
That ain't gangster

People begging for their life still  
I know white people who can't afford to pay their light bill  
Who might feel like they the ones who losing their life  
When the worst thing you could be is not ashamed to be white  
White privilege is a system  
They position for division  
If you're black you go to prison  
If you're white your life is different  
Take some money, race, religions  
Sprinkle in some ammunition  
And make everyone believe  
That the other team is the villain

I ain't pro-black, I ain't pro-white  
I'm pro-American  
Every color turns to bones  
One day when you bury them

Whites or blacks are all the same  
They want us in our graves  
Just let me try to explain

I swear they want us in a race war  
Dying every day for  
Whose lives matter more  
Whoa  
I won't be dying in the race war  
Our government is paid for  
'Cause our lives matter more  
Whoa

They want us in a race war dying in the streets  
Should be us against them but it's you against me  
Ain't nobody gonna win, everybody gon' see  
That the color of your skin don't change the color that you bleed

I swear they want us in a race war  
Dying every day for  
Whose lives matter more  
Whoa

I won't be dying in the race war  
Our government is paid for  
'Cause our lives matter more  
Whoa
