

# Sober

Tom MacDonald

What up y'all? My name's Tom  
Little while back was an alcoholic  
Had a mental breakdown like a year ago  
Came close to putting me in a coffin  
Damn, after the hooker I loved  
After I did all the drugs  
After I finally got fired for showing up late to the job hella tired and drunk  
After the Oxys I put up my nose with my boss on the oil rigs when I was young  
After my ex cut her wrists and the cops thought I stabbed her and beat me then put me in cuffs  
After I totaled my car tryna run from the cops with a kilo of coke in the trunk  
After I drank 'til I rotted my teeth out my head, got infections in all of my gums  
After I couldn't get hard 'cause the vodka and porno sedated me 'til I was numb  
After I couldn't escape from the basement I rented and went to go live with my mom  
After I cheated on people I needed and lied tryna hide from the guy that I was  
Then I got sober, the madness was over, now I am proud of the man I've become, uh

I'm finally someone that I know again  
I started climbing out the hole I'm in  
Fighting demons and I know I'll win  
It's time for me to mend these broken wings

Life has been hard I know it gets better  
This is a war that I'll fight forever  
Whoa-ay-oh-ay-oh  
Whoa-ay-oh-ay-oh  
I have my scars I'll always remember  
When I lost it all and never surrendered  
Whoa-ay-oh-ay-oh  
Whoa-ay-oh-ay-oh

What up y'all? My name's MadChild  
I've been off the Xanies for a while now  
I was waking up feeling suicidal  
But I think I'm finally starting to smile now  
Man, I lived a hell of a life  
I've been to hell and back twice  
Lost 10 million dollars, three different addictions  
Don't tell me 'bout paying the price  
From pent houses with top models  
Hanging with strippers we'd pop bottles  
To anxious and hiding alone in my room from the world, I was pissing in pop bottles  
From chart topping and being a role model to flop records and lost follows  
When I cop product got a month's worth  
When I left the spot cops followed  
If you saw a photo it was only face 'cause I was 85 pounds over weight  
Mental breakdown tryna catch a plane  
Wasn't MadChild I was only Shane

My puppy Lola was my only gang  
Had to put my baby in a fucking grave  
I walked away from every brick I laid  
So I could build a new wall to keep me safe

I'm finally someone that I know again  
I started climbing out the hole I'm in  
Fighting demons and I know I'll win  
It's time for me to mend these broken wings

Life has been hard I know it gets better  
This is a war that I'll fight forever  
Whoa-ay-oh-ay-oh  
Whoa-ay-oh-ay-oh  
I have my scars I'll always remember  
When I lost it all and never surrendered  
Whoa-ay-oh-ay-oh  
Whoa-ay-oh-ay-oh

When you fall down and the world's closing in  
You can get up again, up again

Life has been hard I know it gets better  
This is a war that I'll fight forever  
Whoa-ay-oh-ay-oh  
Whoa-ay-oh-ay-oh  
I have my scars I'll always remember  
When I lost it all and never surrendered  
Whoa-ay-oh-ay-oh  
Whoa-ay-oh-ay-oh
