

Trigger Happy

Tom MacDonald

You're saying you're offended and expecting us to care
Freedom doesn't stop because your feelings aren't prepared
Defund the police, what if you need them when your scared?
They can't help without a budget, I guess they'll send their thoughts and prayers
LGBTQ I'm speaking truthfully
A corporation with a rainbow in their logo isn't what it used to be
They're hopin' you believe then support gender fluid humans
See, it's really just some marketing that targets your community

Woke supremacy
Social justice warriors are enemies
Claimin' their progressive while destroying us effectively
Vilified the patriots and national pride
Make the nation hate the country, then take over from inside
Politics has gone from left and right to left to wrong
But it's really us and them and they been playin' us like pawns
The sheep are waking up they shoulda' knew it all along
They divide us cause the fighting is the fuel that makes them strong

Sometimes I say things to piss them off
I'm trigger happy and everyone gets shot
I know they hate me but I won't stop
I'm trigger happy
Bah, bah, bah, bah, bah, bah

You don't like how the system was designed
But you ain't take no action to change it to save your life
It's your fault the media telling so many lies
Have to water down the truth cause you're offended all the time
If my opinions are offending you then you can go to Hell
Swear to God that you should hear what I been keepin' to myself
Cancel Dr. Seuss, Aunt Jemima, Rogan and Chappelle
Do us all a favor go and cancel yourself
Dear hippies I was hopin' that I could speak with a vegan
We're injecting cows with hormones for various reasons
And if that makes you afraid of all that meat that we're eating
Why is injecting kids with hormones something that you believe in?
Politicians sacrifice our lives for their gain
Their like diapers full of crap and always need to change
Anonymous wears masks so that the truth can be explained
Politicians smile and laugh while they lie to your face

Sometimes I say things to piss them off
I'm trigger happy and everyone gets shot
I know they hate me but I won't stop
I'm trigger happy
Bah, bah, bah, bah, bah, bah

The people who been supportin' abortion over life
Then crossing the border as illegal aliens is right
Housing refugees while veterans are homeless, Holy Christ
Their the ones who say that your evil because you won't comply
Racism been re-defined it's actually way more simple
It's anyone who wins an argument against a liberal
We're all too skinny, too fat, too white, too black
Too right, too left, do this, do that

How many millennial does it take to change a light bulb
None, they will just sit in the dark and say that it's my fault
Men are from Mars, Women from Venus
That's the basics, but y'all all pulled a hundred genders out your anus
What you call a man who wears a dress, gorgeous
What you call a man in women's sports, the wokest
What you call a man in camouflage who goes to war and fights for everybody's
freedoms overseas, homeless

Sometimes I say things to piss them off
I'm trigger happy and everyone gets shot
I know they hate me but I won't stop
I'm trigger happy
Bah, bah, bah, bah, bah, bah
