Watch You Leave

Tom MacDonald

It stared back at breakfast
I was just trying to eat
I asked you what the problem was
You said the problem was me
So I told you, "pack your shit up"
Said some things I didn't mean
I'd hate to see you go, my dear, but I'd love to watch you leave

You got that boom boom, oh my god
Woop, woop, call the cops
I can't let you leave like that but if you do, then I'mma watch
Wam, bam, thank you, ma'am
I miss you a lot
I wanna say that you should stay, but baby, don't stop
You got that boom, boom, boom
You got that boom, boom, boom

It started with the dishes
They've been dirty for a week
I said we got a problem here
You said the problem was me
So I told you, "Hit the road"
And said some things I didn't mean
'Cause I'd hate to see you go, my dear, but I'd love to watch you leave

You got that boom boom, oh my god
Woop, woop, call the cops
I can't let you leave like that but if you do, then I'mma watch
Wam, bam, thank you, ma'am
I miss you a lot
I wanna say that you should stay, but baby, don't stop
You got that boom, boom, boom
You got that boom, boom, boom

Sometimes, I think I make you mad to watch you walk away
It's hard to stop you in your tracks when the view's so fuckin' great
I swear you said you're leaving for the 15th time today
While I'd hate to see you go again, but I love it just the same

You got that boom, boom, oh my god
Woop, woop, call the cops
Wam, bam, thank you, ma'am
If you're going, then I'm gonna watch

You got that boom boom, oh my god
Woop, woop, call the cops
I can't let you leave like that but if you do, then I'mma watch
Wam, bam, thank you, ma'am
I miss you a lot
I wanna say that you should stay, but baby, don't stop
You got that boom, boom, boom
You got that boom, boom, boom
