

# White Trash

Tom MacDonald

This is for my white trash, the ones the whole world hates  
The ones who voted for Trump then got labeled racist, but ain't  
The ones with ball caps "Make America Great"  
Who love their country to death and struggle on minimum wage  
Aye, they're angry that illegal aliens taking work that maybe they could get  
Single parents with some baby kids hated for being a patriot  
All my life I've been white trash, all my life it's been like that  
The whole world been left-leaning, I'm proud of the right who fight back

Been chewed up and spit out; they scream, but no one listens  
They're so in love and vote for Trump 'cause fuck a politician  
They're our neighbors, they're our soldiers, our men and women and children  
They're the middle-class families who got forgot by the system  
Uh, in God we trust and all the guns are just backup  
Rocking camouflage "Don't Tread on Me", get smoked like tobacco  
Yeah, we're white trash, we're rednecks, crackers since we were young  
We grew close, so we move slow, these colors don't run, yeah

Call us white trash like we're someone they know (they know)  
Call us white trash like we care, but we don't (we don't)  
Is it white trash when we're happy and broke? (happy and broke)  
Then I'm white trash, but I'm not alone (not alone)

Yeah, fuck you, I'm white bro, ain't apologizing for shit  
You don't like that I like my skin color, then you can suck my dick  
I like open gun laws, I like drunken bar brawls  
I like drinking Budweiser, I like smoking Marlboro  
We monstered-up in them Monster Trucks, rolling in heavy machinery  
We all believe in protecting ourselves; if you fuck with us, we got that heavy machinery  
Drink beers in a lawn chair, nothing much going on here  
Probably get a few long stares, look like you don't belong here

Aye, please don't get mad at me, I did not put up the barrier  
People are judging me for my exterior  
Man, are you serious?  
Say the word "white" and they act like they're furious  
MadChild and I'm sick as fuck, white boy in my pickup truck  
Shotguns, my girl's muggy, I'm a firecracker, we lit it up  
We just living our best life, don't wrap us up in some whack scandal  
Beer and blood on a wife beater, jacked up on Jack Daniels  
Get my chicken at Colonel Sanders, judge me and I'll backhand 'em  
Tom, pass me that red mask and I'll beat his ass with an ax handle

Call us white trash like we're someone they know (they know)  
Call us white trash like we care, but we don't (we don't)  
Is it white trash when we're happy and broke? (happy and broke)  
Then I'm white trash, but I'm not alone (not alone)

White trash, drinking beer 'til the night pass  
White trash, light a fire if it's cold  
White trash, we don't wanna be high class  
White trash with a heart made of gold

Call us white trash like we're someone they know (they know)  
Call us white trash like we care, but we don't (we don't)  
Is it white trash when we're happy and broke? (happy and broke)

Then I'm white trash, but I'm not alone (not alone)
