

# Wildfire

Tom MacDonald

I never been to careful, ain't no rest for the wicked  
Always burning my bridges, there was a spark  
There was a spark, and now it's a wildfire  
I've done a lot of things, I've had a lot of trouble quitting  
Every single one of my addictions started out with a spark  
And now they're a wildfire

And they're burnin' bright, and they're coming fast  
Should be running for my life, but I light a match  
I've been living with the fire so long that the fire feels good to me

Burn it down to the ground, ooh  
Started gambling, ooh  
Long as it don't meet you  
Yeah, my life is a wildfire  
Burn it down to the ground, ooh  
Started gambling, ooh  
Long as it don't meet you  
Yeah, my life is a wildfire, you are my wildflower

I'd never settle down, I was afraid of commitment  
Too much liquor, too much women, there was a spark  
And there it's a wildfire  
And I've done a lot of things that'd put me in prison  
Had to burn the evidence, and when I lit it, baby, there was a spark  
And there was a wildfire

And they're burnin' bright, and they're coming fast  
Should be running for my life, but I light a match  
I've been living with the fire so long that the fire feels good to me

Burn it down to the ground, ooh  
Started gambling, ooh  
Long as it don't meet you  
Yeah, my life is a wildfire  
Burn it down to the ground, ooh  
Started gambling, ooh  
Long as it don't meet you  
Yeah, my life is a wildfire, you are my wildflower  
You are my wildflower

I can see the smoke coming over the hill  
Hope the thunder rolls, rains in them fields  
Even if it don't, I'mma stand right here  
The fire's still close, I like how it feels

Burn it down to the ground, ooh  
Started gambling, ooh  
Long as it don't meet you  
Yeah, my life is a wildfire  
Burn it down to the ground, ooh  
Started gambling, ooh  
Long as it don't meet you  
Yeah, my life is a wildfire, you are my wildflower
