

# Without Me

Tom MacDonald

I been tripping 'cause I'm not around  
Won't let it show because I'm not allowed  
I'm just tryna make you proud  
I know you'll hold me down  
I know you're tripping 'cause I've gone away  
I wish that they would let me stay  
And if I ever get replaced  
Tell that man I say

You ain't doing nothing new to her  
She is not in love with you  
You are only there because I told her she should go on without me  
Without me  
You ain't doing nothing new to her  
You are not in love with her  
You are only there because I told her she should do it without me  
Without me

One time for them border cops that treated me like shit  
Y'all fucking up the plans I had with a girl I'm tryna be with  
I ain't drug dealing, I ain't living there, I ain't working out in that bitc  
h  
Fell in love with an American, tryna make it all click  
Get my story straight, fuck y'all, told you everything I know  
My phone number, my email, the address to my house, y'all tripping  
Don't try to scare me 'cause I'm not afraid, just do your job and I'll be on  
my way

Just do your thing and I'll be out of here  
Y'all tripping on my tattoo  
My girl needs me there this year  
Don't make me give her bad news  
Don't make me give her bad news  
Don't make me give her bad-

You ain't doing nothing new to her  
She is not in love with you  
You are only there because I told her she should go on without me  
Without me  
You ain't doing nothing new to her  
You are not in love with her  
You are only there because I told her she should do it without me  
Without me

One time for them telling me I've been randomly selected  
It's funny how every single time meant a secondary inspection  
You stop me at the border but you will not stop our friendship  
And our bond is stronger than ever now  
You're the reason it strengthened, so thank y'all, that's kind of you  
It meant a lot to what I'm tryna do  
I'll be back and forth between here and there and you ain't stopping me with  
that attitude  
I'm good now  
I'm not afraid, don't try to scare me  
Love to see how your face looks when I settle down and get married to an Ame  
rican

Just do your thing and I'll be on my way  
I ain't slowing down for shit now  
I'll go wherever she goes  
I will never turn around  
I will never turn around  
I will never turn around

You ain't doing nothing new to her  
She is not in love with you  
You are only there because I told her she should go on without me  
Without me  
You ain't doing nothing new to her  
You are not in love with her  
You are only there because I told her she should do it without me
