

# Worthless

Tom MacDonald

The world is such a scary place  
Everyone who has a problem blames another race (I think we're losin' it)  
They're gonna take the guns away  
Then we won't have nothin' else to keep us safe (It's the stupidest)  
I'm hopin' that we'll be okay, floatin' through this open space  
God ain't cool no more, the science says He's fake so no one prays  
People aren't as woke as they claim  
They think they're free but they're so wrapped up in chains

Everything's racist, everything's gay  
The world is obsessed with everything we hate  
And everyone's cancelled and anything we say  
Just becomes ammo to shoot us in the brain

When it all burns down and there's nothin' else allowed  
'Cause they cancelled everything that wasn't perfect  
They will miss when it was loud, they'll regret when they were proud  
'Cause they tried to make it better, now it's worthless

The world is goin' so insane  
We fight against the fire with an open flame (The system fuels it)  
The boys and girls are not the same  
Somethin' happened and it screwed them up along the way (I think we ruined 'em)  
I'm hopin' we can make a change, broken homes can be remade  
Broken bones and broken hearts can heal 'til they're whole again  
People aren't alone as they think  
We're divided by the forces that are promoting hate

Everything's racist, everything's gay  
The world is obsessed with everything we hate  
And everyone's cancelled and anything we say  
Just becomes ammo to shoot us in the brain

When it all burns down and there's nothin' else allowed  
'Cause they cancelled everything that wasn't perfect  
They will miss when it was loud, they'll regret when they were proud  
'Cause they tried to make it better, now it's worthless

Take a baseball bat to the TV  
Take a baseball bat to they head  
If they cancelled that, then it's easy  
To put some bricks in our hands instead  
Take a baseball bat to the TV  
Take a baseball bat to they head  
If they cancelled that, then it's easy  
We'll use bricks and our fists and they'll wish that they were dead

When it all burns down and there's nothin' else allowed  
'Cause they cancelled everything that wasn't perfect  
They will miss when it was loud, they'll regret when they were proud  
'Cause they tried to make it better, now it's worthless  
When it all burns down and there's nothin' else allowed  
'Cause they cancelled everything that wasn't perfect
