

## Day 2: Feeling

Tom Misch

We could get physical, but there's way much more than the physical  
cal [x4]

We could get physical, but there's way much more than the physical  
cal

Sometimes the best moments in life are minimal

I see more damn what's visible

There's more than words and syllables

There's energy, there's flavour

I take time and think about later

Feeling, I know how you're feeling

You're me and I'm you, it's like dreaming

In the cold, the thought of you is like heating

My heart's beating

No words when I look in your eyes, your soul's speaking

The truth is what we're both seeking

I'm ready to learn, let's start healing

(It's the way) We could get physical, but there's way much more  
than the physical

(It's the way we grow) We could get physical, but there's way much  
more than the physical

(It's the way) We could get physical, but there's way much more  
than the physical

(It's the way we flow) We could get physical, but there's way much  
more than the physical

The sun is behind the clouds, it's internal

So smile sometimes and make that sunshine external

Thinking about what's next, don't worry about hurdles

You're blessed, learning is part of the quest

Just do your best, and the best will do you

Soon see a new you, I can feel when you're near like Bluetooth

I'm in your ear like Bluetooth

Love will bring you a new youth

Accept what's coming your way, in your life is a new truth

It's the way

It's the way we grow

It's the way

It's the way we flow

(It's the way) We could get physical, but there's way much more  
than the physical

(It's the way we roll) We could get physical, but there's way much  
more than the physical
