Echo From The Flames

Tom Misch

I'm burning out
Face down in the ashes
I'm reaching up
No one's there to catch it
I sat
Sat by the fire
Did someone call my name?
Or was it just another echo?

Echo from the flames
Echo from the flames
Echo from the flames

I look around
Disconnected silence
Take my hand
Tell me don't be frightened
I sat
Sat by the fire
Did someone call my name?
Or was it just another echo?

Echo from the flames
Echo from the flames
Echo from the flames
An echo from the flames
An echo from the flames

Echo, echo, echo, echo
