

# Falling For You

Tom Misch

We get to touch  
It's never enough  
I just want some more  
It's never enough

We get to touch  
It's never too much  
I just need some more  
It's never enough

Falling fast for you

Something 'bout the way you move  
Puts me in some kind of mood  
You just take my breath away  
Wanna be with you in every way

Falling fast for you

Something 'bout you baby  
Something cool  
You don't care what people think  
It's clear by the way you move

So unreal baby  
It's untrue  
I'm falling for you

We get to touch  
It's never enough  
I just want some more  
It's never enough

We get to touch  
It's never too much  
I just need some more  
It's never enough

Falling fast for you

Something 'bout the way you move  
Puts me in some kind of mood  
You just take my breath away  
Wanna be with you in every way

Falling fast for you

Something 'bout you baby  
Something cool  
You don't care what people think  
It's clear by the way you move

So unreal baby  
It's untrue  
I'm falling for you
