

## Festival

Tom Misch

You were saying that you don't feel warm when the sun comes through to bright my day  
Don't forget when we were younger, no fair, no fair, well, that was only now and then  
Hundred miles, keep going, keep going, press the pedal on the floor till the skies are there

'Cause it's still still (Ooh)  
We're still still (Ooh)

Seemed to narrow at the time, I had tunnel, tunnel vision anyway, it made me blind  
When exactly did we stop, in on top of the world and called it just a mountain time  
All those moments come and go, everything I thought I know, spend it on what I left behind

So we're still still (Ooh)  
We're still still (Ooh)

Still still  
Still still  
Ooh  
Ooh
