

# Follow

Tom Misch

I know it's alright here  
But follow your heart dear  
I know your dreams are clear  
Don't you know we all fit in

Don't be afraid of who you want to be  
Remember I'm here

So m-m m-m-m-m maybe you should  
Take the first step  
And the rest will follow

It will follow [x3]

I know you feel good here  
In the space of your own  
But time should make you realise  
There's more than this

Remove the labels that you were assigned  
Forget the limits that they taught you

So m-m m-m-m-m maybe you should  
Take the first step  
And the rest will follow

It will follow [x3]
