

Keep It Rising

Tom Misch

You could go down, keep it rising
I could go down, keep it rising
You could go down, keep it rising
I could go down, keep it rising
I said you that could go down, keep it rising
I could go down, keep it rising
You should go down, keep it rising
I could go down down down, keep it rising

You could go down, keep it rising
I could go down, keep it rising
You should go down, keep it rising
I could go down down down, keep it rising
You could go down, keep riding
You should go down, keep riding
We can go down, keep riding
(Uh, uh, uh, uh)

She said, "Boy, don't save my number"
Driving hundred miles an hour
And she poured attentions on my tongue, I taste it
Bulletproof, can you feel the phases? (Uh, uh, uh)

You could go down, keep it rising
I could go down, keep it rising
You should go down, keep it rising
I could go down down down, keep it rising
You should go down, keep it rising
I could go down, keep it rising
You should go down, keep it rising
We could go down, keep it riding

Come, move, we already vibrating
Let's go, let's keep pressing all night
Keep it rising
Keep it rising
Wanna keep it rising

Exhale, let it take you under
Flaunt it like we're in outer space
The more we steal the life and celebrate
Pulling through, can you feel the changes?

You could go down, keep it rising
I could go down, keep it rising
You should go down, keep it rising
I could go down down down, keep it rising
You should go down, keep it rising
I could go down, keep it rising
You should go down, keep it rising
We could go down, keep it riding

Keep rising (uh)
I could go down, keep it rising
You should go down, keep it rising
I could go down down down, keep it rising

Rising (you should go down, keep it rising)
(You could go down, keep it rising)
(Keep it rising) you could go down, keep it rising
I could go down, keep it rising
You could go down, keep it rising
I could go down, keep it rising

You should go down, keep it rising (keep it rising)
I could go down down down, keep it rising
You should go down, keep it rising
I could go down, keep it rising
We should go down, keep it rising
We could go down, keep it rising (rising)
