

Red Moon

Tom Misch

Red moon
Tell me how to make it right
Red moon
'Cause I'm blue just like the sky
Red moon
Yes I'm lost will you shine tonight
Red moon
I know that I need her

Can you change her heart
Can you change her mind
Can you move for me
Like you move the tide
Can you change the stars
Can you make it right
I know that I need her

Red moon
Black sky
I'll wait for you
To rise
Red moon
And a falling star
Can you show me how
Show me how to touch her heart

Can you change her heart
Can you change her mind
Can you move a dream
Like you move the tide
Can you move for me
Like you move the tide
I know that I need her
I know that I need her

Red moon
Red moon
Red moon
Red moon
Red moon
Red moon
Red moon
