

# Watch Me Dance

Tom Misch

Remember every move you made as if it was still true  
It's there I am king, there I feel brand new

'Cause you're in my soul, can't let you go, fighting for you  
And in my dreams, I'll make you appear, oh oh oh  
As we move closer and I groove with you  
Blue and green rays, they shine through, hey  
Feel the energy, you don't have to try  
You can see it in our bodies, you can see it in our eyes

Watch me dance with this memory  
Just as real, just as heavenly  
Watch me dance in my reverie  
The lights decay but the love remains  
Watch me dance with this memory  
Just as real, just as heavenly  
Watch me dance in my reverie  
The lights decay but my love remains

In the mist of the crowded room, you might have flown  
But all I see is you and you alone

'Cause you're in my soul, can't let you go, fighting for you  
And in my dreams, I'll make you appear  
As we move closer and I groove with you  
Blue and green rays, they shine through  
Feel the energy, you don't have to try  
You can see it in our bodies, you can see it in our eyes

Watch me dance with this memory  
Just as real, just as heavenly  
Watch me dance in my reverie  
The lights decay but the love remains  
Watch me dance with this memory  
Just as real, just as heavenly  
Watch me dance in my reverie  
The lights decay but my love remains

It remains  
Hey, hey, hey, hey  
Hey, hey, hey....
