

monster v.2

Tom Odell

I woke up in the night
I found an empty cage
How you got out
I don't know
I guess you clawed your way
You waited there in the shadows
You make me feel afraid
I would've run before
But nah nah not today

Breathe
I close my eyes and count to three
You're only there if I believe

And you're just a monster
Just a monster and I'm not scared
You're just a monster
Just a monster
You're just a monster and I'm not scared

Come on and cut me then
If you really must
Don't you realise that you and I
We bleed the same blood
You've got so much power
And it makes you feel tough
But can't you see that all you need
Is just to be loved

Breathe
Close my eyes and count to three
(One, two, three)

And you're just a monster
Just a monster and I'm not scared
You're just a monster
Just a monster
You're just a monster and I'm not scared

You're only in my mind, yeah
You're only in my mind
Tomorrow I'll be fine
Cause you're only in my mind
You're only in my mind
Gonna see you one more time
Only in my mind
Tomorrow I'll be fine

And you're just a monster
Just a monster
You're just a monster and I'm not scared
You're just a monster
Just a monster
You're just a monster and I'm not scared
I'm not scared
I'm not scared
I'm not scared

You're just a monster and I'm not scared
