

Summer Day

Tom Odell

Sometimes the winter gets me down
The pitter patter of the rain upon the window sound
I lay inside my head
Then I remember what my pretty little friend she said

(Ah) I have only got to see your face
And you show me how
(Ah) It can be a summer day
Honey all year round

I don't know much about society
Or if we're growing up quicker than we're meant to be
But when you put your hands in my hands
You speak a language only us can understand

(Ah) I have only got to see your face
And you show me how
(Ah) It can be a summer day
Honey all year round

Stop crying
Stop crying
Oh they'll come right out

Stop lying
Stop lying
You'll never have a doubt
You know soon it will be spring
You know you really are the prettiest thing

(Ah) I have only got to see your face
And you show me how
(Ah) It can be a summer day
Honey all year round
(Ah) It can be a summer day
Honey all year round
(Ah) It can be a summer day
Honey all year round
