

# Me Too

Tom Paxton

I used to be willing to hide the scars  
Wear turtleneck sweaters in the back of the car  
But thanks to my sisters who spoke out so true  
I'm able to say, "Me too"

"Me too" means you're done having power over me  
"Me too" means the sisterhood is strong and it's free  
"Me too" means we're taking our place in this world  
"Me too", "Me too", "Me too"

If I spoke up before it was silence to your ears  
I'm just a little person who has suffered through the years  
But thanks to my sisters who spoke out so true  
I'm able to say, "Me too"

"Me too" means you're done having power over me  
"Me too" means the sisterhood is strong and it's free  
"Me too" means we're taking our place in this world  
"Me too", "Me too", "Me too"

In the office or the coffee room, your hotel or your home  
Your powers have dissolved, you'll find that you're alone  
We'll walk away and shout your name for everyone to hear  
The time has come to wash away our fear

From small town America to Hollywood's big screen  
And kids sold as slaves that we have never seen  
The door has swung wide open and together we're strong  
We carry each other along

"Me too" means you're done having power over me  
"Me too" means the sisterhood is strong and it's free  
"Me too" means we're taking our place in this world  
"Me too", "Me too", "Me too"  
"Me too" means we're taking our place in this world  
"Me too", "Me too", "Me too"
