

# Black Angel

Tom Robinson Band

Steve was a rebel and a boozier  
The AC king of teenage cool  
He was a clean-cut calculating cruiser  
Broke the heart of every kid in the school  
Well I never had him figured for a loser  
Till one morning no-one could foresee  
He fell in love with a sweet black angel  
In Brixton Market SE23

I've been in South Kent, Clapham and Cleveland  
I've been in love and I've been deceived  
But I've never been a sucker like Steven  
Who lost sight of everything he'd achieved  
Well he told me on the night he was leaving  
(Though I found it pretty hard to believe)  
You'll fall in love with the sweet black angel  
He said I had it coming to me

I've got a friend in Borstal  
I've got a friend next door  
I've got a friend in my own double bed  
I've got a real friend in the law

I've got a friend in Jesus  
But we're just good friends you see  
'Cause I'm in love with the sweet black angel  
I know he's coming after me

In love with the sweet black angel  
In love with the sweet black angel  
I'm in love with the sweet black angel  
I know he's coming after me
