

Bully For You

Tom Robinson

Cut the cackle 'cause we're getting to the facts now
Guilt edged security hold me back now
Cold blanket at the drop of a hat man
Bully for you, I'm just mad about that man

I hear the sound of dogs in the rain
I know you won't be back again
We seen it three times on the run
Pass up a chance to
Cut the crap and make it happen
Giving can be fun

We don't need no aggravation
We don't need no aggravation

I ain't afraid but I just don't wanna fight now
This movie's over, so switch that light out
Turn of the screw and tomorrow soon come man
Wake in the morning, wonder what've you done man

There ain't another place in town
I'm moving over, going down
Killing time, the morning drop
The final judgement
Stayed a day to try your way to
Make the aching stop

We don't need no aggravation
