

# Chance

Tom Robinson

If I had my chance I'd do it all over again  
If I had my chance I'd do it all over again  
Been treated badly, been abused  
Been suicidal and confused  
But if I had my chance I'd do it all over again

I was seventeen when I made my way to the smoke  
I was seventeen, I was homeless, hungry and broke  
I hustled subways for a bite  
And crashed in the cardboard city at night  
But if I had my chance I'd do it all over again

I asked for change and you smiled, the day that we met  
I asked for change, you offered me food and a bed  
You gave me back my selfrespect  
Yeah, loving you's one thing I'll never regret  
And if I had my chance I'd do it all over again

You weren't cute but you knew what I wanted to do  
You weren't cute but you knew what I wanted from you  
Where you took me I'd never been  
Or dreamed of in my wildest dreams  
And if I had my chance I'd do it all over again

Since you've been gone I can't sleep easy at night  
I've got this cough and I can't sleep easy at night  
The friends we had are gone and dead  
But you're one friend I can never forget  
And if I had my chance I'd do it all over again
