

## Still Loving You

Tom Robinson

I still recall those crazy nights  
Days our love was at its height  
The madness and the passion that we shared  
Waking early in the gloom  
Beside you in that bedsit room  
Magazines and letters everywhere

Payphone ringing in the hall  
Cheap emulsion on the walls  
The smell of winter in the air  
With you I feel alive and clean  
And happier than I've ever been  
When I'm alone it's hard to bear

One day I will lose you and that I know  
But sure as hell I'm gonna be yours forever  
And till that day I'll still be loving you  
The way I do while we're together  
Be loving you... still loving you

The day we went back to the place  
You spent your wild unhappy days  
The hometown of a teenage refugee  
I lay beside you on the grass  
As trains to London thundered past  
The ghost of who you used to be

One day I will lose you and that I know  
But sure as hell I'm gonna be yours forever  
And till that day I'll still be loving you  
The way I do while we're together  
Be loving you... still loving you

Silences and sudden strains

Fall between us now again  
I know you're always on your guard  
But you don't have to be sweet to me  
Be what you want to be -  
Be rude and brutal if you are

One day I will lose you and that I know  
But sure as hell I'm gonna be yours forever  
And till that day I'll still be loving you  
The way I do while we're together  
Be loving you... still loving you
