

How This Came To Be

Tom Rosenthal

Follow me now
there is somewhere
I want to go

You know me well and that is how it is, it is, it is
You don't know how this came to be

I did not say
I found a way
on my own my own

You don't know how this came to be
You don't know how this came to be

Follow me now
there is somewhere
I want to go

Upon the stars
or down below below below below
You don't know how this came to be
You don't know how this came to be
