

Hugging You

Tom Rosenthal

You took all the lonely days
And you made them sing
You turned off the alarms
So they don't ring
I don't know where we are
In the grand scheme of things
But I just want to be counting stars with you

Life did throw everything
That it could throw
Your face in the morning
It just glowed
Let's get in this car
Let's face the sky and go
I just want to be counting stars with you

Rap it up
And let's go rolling down
There's no funnier duo in this town
Just want to say I'm better now
And shout it loud
I just want to be hugging you tonight

Don't know if you know
But I just want to tell you so
That you're the wisest funny one
That I will ever, ever know

A hundred mini dreams
And a healing scar
The secrets of the day are never far
I don't know where we're going
But God it's a start
I just want to be counting stars with you

Don't know if you know
But I just want to tell you so
That you're the wisest funny one
That I will ever, ever know

I don't know about you
But I oh love us as a two
Find me a wild road
And I will name it after you

You took all the lonely days
And you made them sing
You turned off the alarms
So they don't ring
I don't know where we are
In the grand scheme of things
But I just want to be hugging you tonight
