

# Spring

Tom Rosenthal

You were walking on the phone  
You were talking all alone  
I was feeling low but then I saw you glow and all just seemed to  
be right  
You had nothing on your feet  
Your soles upon that street  
You said to me that your life is nice and your mind was like the  
sea

Oh 1 2 3 4 5  
All the bees are in the hive  
You said it's all pretty funny that the bees make honey and keep  
us all alive  
Oh the words I used to say  
Are getting longer by the day  
And if you ask me nice I'll tell you twice I'm feeling pretty okay

It's gonna be spring one day some day and we're gonna be homely  
It's gonna be spring one day some day and we're gonna be homely  
It's gonna be spring one day some day and we're gonna be homely  
It's gonna be spring one day some day

Ooooh  
I said I'd be around your whole life  
I'll be your favourite one  
I said I'd be around your whole life  
I'll be your favourite one  
I said I'd be around your whole life  
I'll be your favourite one  
I said I'd be around your whole life  
I'll be your favourite one  
I said I'd be around your whole life  
I'll be your favourite one  
I said I'd be around your whole life  
I'll be your favourite one

It's gonna be spring one day some day and we're gonna be homely  
It's gonna be spring one day some day and we're gonna be homely  
It's gonna be spring one day some day and we're gonna be homely  
It's gonna be spring one day some day
