

Was it you who I saw?

Tom Rosenthal

They say you lived in a house in the clouds
And from up there it all did seem so true

Was it you who I saw?
Was it you who I saw?
Was it you?

Somebody said, you lie in the night upon the sand
And from down there you knew every shape of the moon

Was it you who I saw?
Was it you who I saw?
Was it you?

Was it you who I saw in the cold?
My heart was almost shaking
Was it you who I could never hold?
Your eyes weren't made for waiting
Was it you who never got old?

They say you found a home in the wind
And every blow was magic to the skin

Was it you who I saw?
Was it you who I saw?
Was it you?
