

Aftermath

Tom Speight

Am I holding you back
Got the keys to the map
When I think about, think about you
Are you living up town
Do you ever get down
When you think about, think about us

So, I'll wait
Wait and wonder
Is this part of the aftermath
Is this us?
Is it over?
Are we part of the aftermath

Do you ever keep in touch
With the friends that I lost
Do you talk about, talk about me?
Was I just a tattoo
You keep out of view
I'm the only one that ever could see

So I'll wait
Wait and wonder
Is this part of the aftermath
Is this us?
Is it over?
Are we part of the aftermath
Are we part of the aftermath
When you think about, think about us
When you think about, think about us
Are we part of the aftermath
When you think about, think about us
When you think about, think about us
Are we part of the aftermath
Are we part of the aftermath

Are we part of the aftermath
