

Better Together

Tom Speight

Two lovers sat by the side of the street
Set the frame and the shutter speed
All the light is a memory
The still hope in front of me

Are we out of time
Erase and rewind
Can we face this mess alone, alone
Are we out of time
Erase and rewind
Can we fix this mess together
We're better, better together

Morning breaks like a slap in the face
Couldn't focus in a crowded place
Two for one at a local bar
Last night I went too far

Are we out of time
Erase and rewind
Can we fix this mess alone, alone
Are we out of time
Erase and rewind
Can we fix this mess together
We're better, better together
