

Collide

Tom Speight

Two hearts and three lost words
Fall through the universe
And we collide when you ask me
Have you felt a certain rush between the two of us
And we collide for the first time

I belong with you
Baby I belong
I belong with you

You are with me from the end to the start
When gravity pulls on us
You are with me from the end to the start
When gravity pulls on us

Two hearts and three lost words
Timeless when lovers hurt
And we collide when you ask me
Calling on past and present
Like its ?
And we align for the first time

I belong with you
Baby I belong
I belong with you

You are with me from the end to the start
When gravity pulls on us
You are with me from the end to the start
When gravity pulls on us
When gravity pulls on us
When gravity pulls on us

You are with me from the end to the start
When gravity pulls on us
