

# Dive

Tom Speight

Blue skies, kind heart  
Leading me out of the dark  
Oh Lord, I was lost  
Cold light, new love  
Sending me up above  
This town this night

Ooh...  
I was on the outside  
Ooh...  
Always on the outside

Come let me dive into your heart  
Let me dive  
Come let me dive into your heart

Train track, walk back  
Leading me past your house  
And everything I felt  
All the things that have gone before  
And the strangers outside  
Living like 2 point 4  
And every street I walk  
Leads me to your door

Ooh...  
I was on the outside  
Ooh...  
Always on the outside

Come let me dive into your heart  
Let me dive  
Come let me dive into your heart  
Come let me dive  
Come let me dive into your heart  
Let me dive  
Come let me dive, come let me dive

What's this all for  
What's this all for  
What's this all for  
What's this all for

What's this all for  
I couldn't love you more  
What's this all for

What's this all for  
I couldn't love you more  
What's this all for (I couldn't love you more, I couldn't love you more)

What's this all for  
I couldn't love you more  
What's this all for (I couldn't love you more, I couldn't love you more)

What's this all for  
I couldn't love you more

I was on the outside
