

# Escape

Tom Speight

Saturday sun and I'm feeling young  
Can't get you off my mind  
Girl your work is done

Cause everything I touch, every path leads to you  
Can't sleep, city streets, I'm walking off you  
Every little piece, there's so much to lose  
Can't see, can't leave, I'm thinking of

All the love I feel  
Is it real, is it real  
And all the words I say  
Are they fake, are they fake  
Cause I've been hurt too many times to care  
I've given up, given love  
I've been burnt too many times to share  
Can't face, heartbreak, be my escape

The city's on fire, going down in flames  
New world drama, who will you save?

Cause every red sky, every night leads to you  
Can't sleep, city streets, I'm walking off you  
Everything you touch, burns right through  
Can't see, can't leave, I'm thinking of

All the love I feel  
Is it real, is it real  
And all the words I say  
Are they fake, are they fake  
Cause I've been hurt too many times to care  
I've given up, given love  
I've been burnt too many times to share  
Can't face, heartbreak, be my escape

Cause all the love I feel  
Is it real, is it real  
And all the words I say  
Are they fake, are they fake  
Cause I've been hurt too many times to care  
I've given up, given love  
I've been burnt too many times to share  
Can't face, heartbreak, be my escape

Be my escape
