

# Feel The Night

Tom Speight

Feel the night

When you smile at me  
Electricity is running through my bones  
Feels just like home  
I don't feel so alone  
I don't feel so anxious and weak  
Give me what I need  
Send me above  
Tell me it's love  
Anytime I look at you

Anytime come and just (Feel the night)  
Just lie by my side  
Come and just (Feel the night)  
You wanna lead, come and please  
Stay close to me (Feel the night)  
Stay, stay, stay  
Stay close to me (Feel the night)  
Stay, stay, stay

As the sun goes down  
At the edge of the town  
We're taking on the night  
Put your heart on the line  
Anytime I look at you

Anytime come and just (Feel the night)  
Just lie by my side  
Come and just (Feel the night)  
You wanna lead, come and please  
Stay close to me (Feel the night)  
Stay, stay, stay  
Stay close to me (Feel the night)  
Stay, stay, stay

With the moon on the run  
Shooting from the sun  
Straight into my arms  
We are forever young  
Forever young

Come and just feel the night  
Stay, stay, stay  
Come and just feel the night  
Stay, stay, stay

Stay close to me (Feel the night)  
Stay, stay, stay  
Stay close to me (Feel the night)  
Stay, stay, stay  
With the moon on the run  
Shooting from the sun  
Straight into my arms  
We are forever young  
Forever young

Come and just (Feel the night)  
Stay, stay, stay  
Come and just (Feel the night)  
Stay, stay, stay
