

My Name

Tom Speight

You're in my head, in my heart
The beat in every passing car
Look my way, be my song
Tell me I'm the lucky one
Staring at an empty screen
Dreaming of a movie scene
I shoulda known better

You can't say my name
You can't hide the way
You know I'll be there
Whenever you turn my way
Everythin' I want right now
You know I won't turn you down
You hit me like a hurricane
Baby won't you say my name
My name

You're in my arms, make me wait
Fillin' up all my days
You're in my view, you're in my frame
In every polaroid I take
Starin' as you walk right through
You're the only girl in every room
Shoulda known better

You can't say my name
You can't hide the way
You know I'll be there
Whenever you turn my way
Everythin' I want right now
You know I won't turn you down
You hit me like a hurricane
Baby won't you say my name
