

No More

Tom Speight

Tell it all to the stars
Tell it all to the stars
See if anything comes back
I warned you
It won't do now
Tell yourself little lies
Through know the sky
You think I'm gonna come back
To find you
I won't do now

I won't cause
Would you lose the one you trust when love gets lost
Between the ashes and the dust
Don't you come around
Don't you come around
No more
Don't you come around
Don't you come around
No more

Tell it all to the stars
Tell it all to the stars
You think I'm gonna come back
It's hard to
Like you now

I won't cause
Would you lose the one you trust when love gets lost
Between the ashes and the dust
Don't you come around
Don't you come around
No more
Don't you come around
Don't you come around
No more
Don't you come around
Don't you come around
No more
Don't you come around
Don't you come around
No more

Tell it all to the stars
Tell it all to the stars
See if anything comes back
I warned you
It won't do now
