

# Old Flame

Tom Speight

Close your eyes I wanna dive  
Right to the sea where I was holding you near  
I had you here  
Behind the neon lights  
I don't know why I came here tonight  
It's 'cause I want you  
It's 'cause I want you

Looking back over time  
Photographs play on my mind  
On my phone, Paris and Rome  
I guess we had a pretty good time  
I don't know how I feel about you now  
But I want you  
But I want you

Silent waters run deep  
Your shape stuck in the sheets  
I don't know why  
I feel just like some old flame  
Like a crossed out name

I saw you out with your friends  
But I just had to turn away  
There's a hole in this town  
I keep on falling down  
I don't know why I came here tonight  
It's 'cause I want you  
It's 'cause I want you

Silent waters run deep  
Your shape stuck in the sheets  
I don't know why  
I feel just like some old flame  
Like a crossed out name

Silent waters run deep  
Your shape stuck in the sheets  
I don't know why  
I feel just like some old flame  
Like a crossed out name  
Some old flame
