

Once

Tom Speight

I remember our first kiss
Did you even notice?
We were laying back in your garden, we were one
Summer nights and long days
Remember how they taste
When we young and they could never end

I gave you everything at once
Once, once, once
I gave you everything at once

Driving through the backstreets
Holding hands with Godspeed
You kinda made me forget
Who I was

I gave you everything at once
Once, once, once
I gave you everything at once

We were good, going nowhere
We were good, going nowhere

Found myself 'round your way
I remembered your birthday
You know, I was paying attention all along

I gave you everything at once
Once, once, once
I gave you everything at once

We were good, going nowhere
We were good, going nowhere
Going nowhere

Once, once, once
Going nowhere
Once, once, once
