

One More Time

Tom Speight

Dreaming of another life
One where you were by my side
We were just kids on the street
You were two years older than me
Some days kinda feel the same
Same I can't remember my name
And if we did it all again
Could I still call you a friend
Could I still call you a friend

And you know you blew my mind
And you know I came to life
Wherever you are
You know I would lose it all
Just to see your face
One more time
One more
One more time

Picking up Clair from school
With eyes like waterfalls
I live my life in regret
Take me back to when we 1st met
When Lennon was singing for you
And I was at the back of the queue
And if we did it all again
Could I still call you a friend

And you know you blew my mind
And you know I came to life
Wherever you are
And you know I would lose it all
Just to see your face
One more time
One more
One more time

One more time
One more time
One more time
One more time
One more time
