

Shine With Me

Tom Speight

From the moment you wake
Till the last breath I take
I'll be, I'll be, always

Looking out for you
Cause I love you to the moon
I do, morning till dawn
Always

So, lay me down
Cause you're all I need
Come on love, come on now
Shine with me

When some days don't go your way
I'll be there to keep you safe
I will, with love and care
Always

So, lay me down
Cause you're all I need
Come on love, come on now
Shine with me
Shine with me

(Shine with me, shine with me)
(Shine with me, shine with me, shine with me) Shine with me
(Shine with me, shine with me, shine with me) Shine with me
(Shine with me, shine with me, shine with me) Shine with me
(Shine with me, shine with me, shine with me) Shine with me

In the morning rain on your darkest days
Find the error in your ways
When you're half asleep, too tired to see the wood from the trees

In the morning rain on your darkest days
Find the error in your ways
When you're half asleep, too tired to see the wood from the trees
