

Somebody Somewhere

Tom Speight

Cold cold stormy night
Wrestles with my mind
Follow the head light

Long long way from home
Got me thinking of you
Where do I go?

I used to lay by your side
Used to turn out the light
Now I'm sleeping on my own

Never held, never felt
Never loved, never hurt like this
Like this

Too little, too late to turn
'Cause now your mind's made up
When will I learn?

Am I still the boy at school?
Acting like a kid, like a fool
Show me the way back home

Never held, never felt
Never loved, never hurt like this
Like this
Never held, never felt
Never loved, never hurt like this
Like this

Will somebody hold me?
Somebody out there
Will somebody hold me?
Somebody somewhere
Will somebody hold me?
Somebody out there
Will somebody hold me?
Somebody somewhere

Somebody somewhere
Ooh, somebody somewhere
Somebody somewhere
Mmm, somebody somewhere
Oh, somebody somewhere
Somewhere
Somewhere
Ooh
Somebody, somebody
Somebody, somebody
