

Something To Say

Tom Speight

I've got something to say
But I need you here
To whisper all of the night
In your ear

I won't travel the world
With an empty seat
So come a little bit closer to me

Close your eyes and disappear
'Cause there's magic in here
I've been waiting too
I want to feel in love with you
In every breath and every word
Make you feel like the only girl in the world

I found myself in a coffee house
I pulled you out from the crowd somehow
And here with you is the place to be
So come a little bit closer to me

Close your eyes and disappear
'Cause there's magic in here
I've been waiting too
I want to feel in love with you
In every breath and every word
Make you feel like the only girl in the world

And close your eyes and disappear
'Cause there's magic in here
I've been waiting too
I want to feel in love with you
I want to feel in love with you

And I've got something to say
But I need you here
