

Sungirl

Tom Speight

Hello, my sun girl
I've been waiting for you to come around
To take me away, girl
Lay my worries to bed and slow it down

When you shine on me, I feel out of this world
You're my sun girl

And I love it when you blow my mind, oh why
And I just wanna make you smile, oh why
You're my sun girl

Hello, my sun girl
We could go to Rome or down the road
As long as you're right here
I'm golden, you know
I'm ready to go

And when you shine on me, I feel out of this world
You're my sun girl

And I love it when you blow my mind, oh why
And I just wanna make you smile, oh why
You're my sun girl
You're my sun girl
And when you shine on me, I feel out of this world
You're my sun girl
