

# The One

Tom Speight

I was the first  
You were the last  
You were my heaven  
I fell so fast

How could you  
Run away with the light  
Left me in the dark  
Stealing my heart  
How could you  
Dance with the devil and lie  
Tell me it's alright

Don't tell me it's over  
You are the one  
Don't cry on my shoulder  
If you were the one  
The one the one

How come you never even think about me  
What is love if the other one leaves  
Don't tell me it's over  
Cause you are the one the one the one

Love was the hope  
But we got it wrong  
Can't pretend you're not what I want  
But how could you  
Run away with the light  
Left me in the dark  
Stealing my heart  
How could you  
Dance with the devil and lie  
Tell me it's alright

Don't tell me it's over  
You are the one  
Don't cry on my shoulder  
If you were the one  
The one the one

How come you never even think about me  
What is love if the other one leaves  
Don't tell me it's over  
Cause you are the one the one the one

I feel untouchable when  
Your hands inside of mine  
Goddamn it's a miracle I'm here

Don't tell me it's over  
You are the one  
Don't cry on my shoulder  
If you were the one  
The one the one

How come you never even think about me

What is love if the other one leaves  
Don't tell me it's over  
Cause you are the one the one the one  
  
Cause you are the one the one the one
