

# The River

**Tom Speight**

We are strangers to who we used to be  
Endless changes that outweigh you and me  
And I remember when we were the best of friends

Oh, take me back  
Back to the river  
Oh, take me now  
Back to the river

We were dreamers heading for the city lights  
There's no rivers for the days that have gone on by  
Still, I remember when we were the best of friends

Oh, take me back  
Back to the river  
Oh, take me now  
Back to the river

'Cause I remember the times we had  
Oh, now brother it makes me sad  
To think of you now  
To think of you now  
To think of you now

Oh, take me back  
Back to the river  
Oh, take me now  
Back to the river  
Back to the river
