

Together Or Alone

Tom Speight

She got eyes like the stars
But she's always in the dark
She lasts awake
Just when the night is falling
I should be lost
Here in the night
But now I'm not
'Cause it's my name she's calling

Ah, in time we will find
Ah, if we make it to forever
Ah, take one day at a time
Ah, and we'll make through together or alone

She got hands [?]
Each part of me, she's all I need
Just when the night is closing
And when the clouds hang over me
I have no fear
'Cause it's my hand she's holding

Ah, in time we will find
Ah, if we make it to forever
Ah, take one day at a time
Ah, and we'll make through together or alone
And we'll make through together or alone
And we'll make through together

I never thought
We'd end up here
And all we had
Would disappear
I always hoped
One day you'd find me
Find me

Ah, and in time we will find
Ah, if we make it to forever
Ah, take one day at a time
Ah, and we'll make through together or alone
And we'll make through together or alone
And we'll make through together or alone
