

Wonderful Wonder

Tom Speight

I'd like to dance
Take you out tonight
See the city under neon skies
I'd like to shout
Tell the world right now
How I'm feeling
And scream it out loud

And I know you feel the same way
What a wonderful wonder
And I guess it's worth the wait
What a wonderful wonder

You are
When you look me in the eye
When you take me by surprise
With the words you say tonight
What a wonderful wonder

Let's walk the streets
Past the midnight bars
Takeaways and empty hearts
Let's slow it down
Like no one's around
Like we're the only souls
In this town

And I know you feel the same way
What a wonderful wonder
And I guess it's worth the wait
What a wonderful wonder

You are
When you look me in the eye
When you take me by surprise
With the words you say tonight
What a wonderful wonder

And I know you feel the same way
What a wonderful wonder
And I guess it's worth the wait
What a wonderful wonder

You are
When you look me in the eye
When you take me by surprise
Those three words you say tonight
What a wonderful wonder
You are
When you hold out your hand
When you do all you can
I hope you understand
What a wonderful wonder

You are
When you look me in the eye
When you take me by surprise

Those three words you say tonight
What a wonderful wonder
